Dear Kion!

Allow us to express our deep gratitude to you for many years of cooperation and support of the activities of the Federal State Autonomous Institution «NMRC of Children's Health» of the Ministry of Health of Russia, as well as active participation in the III International Conference «Psychological and Pedagogical Innovations in Pediatric Practice» with presentation «Experience in providing special educational assistance to children with special needs in Japan».

We express our sincere confidence in the continuation of joint work on the improvement of psychological and pedagogical care in pediatrics.
